AFRICAARRAY (2005-present)

A. Nyblade is a founder and co-director of AfricaArray (www.africaarray.org), a multifaceted initiative supporting science capacity building in Africa and the U.S. with a strong emphasis on enhancing diversity in the geosciences. The AfricaArray network of 53 permanent geophysical observatories in 17 African countries provides seismic, GPS and weather data openly to the community. Eighteen postdocs, 88 graduate students, and 128 U.S. undergraduate underrepresented minority students have been supported and mentored since 2005.

PENNSYLVANIA STATE SEISMIC NETWORK (PASEIS; 2006-present)

With support from the Pennsylvania Bureau of Topographic and Geologic Survey and Department of Environmental Protection, A. Nyblade constructed and operates a seismic network for the state of Pennsylvania (<http://paseis.geosc.psu.edu>). In 2016 the network was expanded from 10 to 30 stations and event location services were added.

MARCELLUS CENTER FOR OUTREACH AND RESEARCH (MCOR; 2016-present)

A. Nyblade is a co-director of MCOR (<http://www.marcellus.psu.edu>) and focuses his efforts on promoting geological, geophysical and environmental research related to shale gas and oil exploitation in the Appalachian Basin.
